

(D) (P)

Kinnser : PT EVAL Questionnaire

Name: RWUTOWSKI, APAN

Date: 8/25

Time:

Age: 37

Sex: F

Medical dx: HNP

Physical therapy DX: back pain, Imp. balance & gait.

Relevant medical hx: HNP

Prior level of functioning:

Bed mobility: Independent / Needs assistance/ Dependent

Transfers: Independent / Needs assistance/ Dependent

Gait: Independent / Needs assistance/ Dependent

Stairs: Independent / Needs assistance/ Dependent

DME: Cane / Walker / wc

Patient's goals: want to walk / want to transfers independently / able to sit up/ don't want to fall.

to be pain free

Lives with: Alone:

Home with:

family

Facility:

Caregiver available: Y / N

hours available:

24 hrs

Safety Hazard: none / steps/stair/ clutter/ pets/ narrow walkways/inadequate lights/

Vitals: BP: 122/87

HR: 78

Temp: 97.7

Resp: 17

Oxygen: Y/N

How many Litres:

Via: Nasal Canula.

How many hours: PRN/6/12/24/Night

Subjective: patient is feeling weak / scared of falling/ has difficulty in walking/

feeling good
glasses.

(IF no answer than WFL) Orientation: impaired, speech: mpaired, Vision: impaired,

Hearing: Impaired, coordination: impaired, sensation: Impaired

Muscle tone: impaired endurance : impaired Posture: impaired

Edema : absent / present

Pain: Location whole back

Type:

sharp
pain

score:

/10
